

It Happened TODAY

SEN. CAIRINE WILSON
... Set up a fund.**The Nation**

A Canadian fund for Czechoslovak refugees has been set up to assist people who have fled that country. The fund is under the chairmanship of the Communist regime, under the chairmanship of Canada's first woman senator, Cairine Wilson.

National Research Council announced it will sponsor approximately 40 post-doctoral fellowships in its laboratories in 1949-50, including six atomic energy grants for the laboratories of the atomic energy project at Chalk River, Ont.

An investigation of a municipality-owned plant to solve Winnipeg's chronic shortage would cost at least a half-dollar more a barrel and would not be economical, a committee reported city engineer W. D. Hurst.

An investigation after charges had been made by a former patient has shown no patient died as a result of violence in one of Saskatoon's mental hospitals.

Religion

Canadian Council of Churches was told that "a revival of bibles reading in all the fair plain Canadian towns" would help fulfil in this country now, by Rev. Dr. George P. Gilmour, Chancellor of McMaster University.

Britain

Because 1,500 to 2,000 persons die in Britain every year from bovine tuberculosis and because 30 per cent of Britain's milk is infected, the Labor government made public a bill which will make illegal the sale of milk not from tubercle-tested herds pastured, or sterilized.

★ ★ ★

Martin Atlee, 21, only son of Britain's Prime Minister Clement Attlee, arrived at Vancouver as fourth officer aboard the M.S. Rhenania.

Mr. Ernest Cuneo of New York, a former Winnipegger who worked in the British Intelligence Service, came home from hospital with the baby daughter he had Nov. 10.

★ ★ ★

Circumstances surrounding the life of "solo boy" Gordon Kelley, now undergoing treatment at Te-

ronto Psychiatric Hospital, are being investigated by the Ontario Provincial Police, Peel County officials and provincial police.

★ ★ ★

Claiming more people should spend more time at home with their families, Indiana preacher, Rev. H. H. Hinsdale, has come up with a wonderful new organization: The Organization to Encourage People Quiet Organizations.

★ ★ ★

Milestones

P. H. Peters, 63, chairman of the Canadian Board of Geographical Names, is retiring from the board and from public service after years of service with the Royal Canadian Air Force.

★ ★ ★

Identified American will be presented to United States Army personnel for the first time, giving them some idea of what to expect to prove when he is captured in battle.

★ ★ ★

President Truman threw overboard the decision of Paul Hoffman, president of the Pulp and Paper Association, to withdraw from the grain export trade.

★ ★ ★

Identified American will be presented to United States Army personnel for the first time, giving them some idea of what to expect to prove when he is captured in battle.

★ ★ ★

One grand championship yesterday went to the United States, while the silver medal, M. shown by William Farms of Rome, Mich., in the 1000-yard female silver steeplechase. Grand champion for Herseford was won by Warren Smith, of Old Alton, Ill.

The west also brought the best in female Shorthorns—Maxine Dunn, of Lethbridge, Alta., and Fred F. O. Hamill of Innisfail, Alta.

One grand championship yesterday went to the United States, while the silver medal, M. shown by William Farms of Rome, Mich., in the 1000-yard female silver steeplechase. Grand champion for Herseford was won by Warren Smith, of Old Alton, Ill.

The bill received second reading without division.

Opposition Leader James Caguer Edie told the Commons that the general purpose of the measure is to establish the framework of a civil defence organization which could be expanded quickly.

The organization, he said, would be able to meet the needs either of conventional forms of attack or attack by atomic bombs and other weapons.

The bill would make it possible to require employers to train and equip their employees for civil defence and to provide shelters for them. In peacetime, reliance would be placed on voluntary recruitment.

★ ★ ★

Beef and swine carcasses were auctioned off in the fair's big refrigerated section.

The grand champion beef carcass, sold by William Jackson and Sons of downtown, Ont., brought a record \$17,000. Average price paid for 471 head carcasses was 56 cents a pound.

★ ★ ★

Preston Hinkley of Ormiston, Que., received \$100 a pound for his championship Wiltshire bacon.

★ ★ ★

Twenty swine carcasses were sold at an average price of \$1.5 cents.

The bill was criticized as being clumsy by the faultless performance of a six-car-old chestnut gelding who had just come off with the Reich \$1,000 presidential jumping stake, donated by the family of J. A. Nester, Veteran's Affairs Minister. Mrs. Nester rode the horse to its win for W. R. Ballard of Weston, Ont.

★ ★ ★

Miscellany

Fascist Publications, Inc., of True Confessions magazine, applied for an injunction restraining Canadian Customs from seizing its issue from the word "confessing" as the dominant word in its title.

★ ★ ★

Preston Publications, Inc., of True Confessions magazine, applied for an injunction restraining Canadian Customs from seizing its issue from the word "confessing" as the dominant word in its title.

★ ★ ★

W. H. Murray, 50, taunted the opposition.

★ ★ ★

George Simpson, Pembroke, Ont., jeweler who is conducting a campaign against the tax on personal property, has filed a class action suit on behalf of all taxpayers in the United States of America.

Mr. Marler, who only works two days a week, has been fighting the tax on personal property since the meeting between the CPA and tax officials on the basis he would gain a great deal if the tax was removed.

He has been helped by the farmer and rancher.

★ ★ ★

According to Duke University's Parapology Bulletin, the members of files and records in the British Intelligence Service, came home from hospital with the baby daughter he had Nov. 10.

★ ★ ★

There are circumstances surrounding the life of "solo boy" Gordon Kelley, now undergoing treatment at Te-

ronto Psychiatric Hospital, that are being investigated by the Royal Canadian Mounted Police.

★ ★ ★

Two children killed

PALMERFIELD, Alta., Nov. 24.—The board of directors of the Alberta Wheat Pool has urged the government to raise the domestic price of wheat to the level of class two wheat prices, Ben. S. Plumer, Pool chairman, said at the annual meeting of the organization yesterday.

The Class Two price is that charged in export sales to countries other than Great Britain. The wheat board has been selling to Canada and abroad at a considerably reduced price.

Mr. Plumer said he was hopeful the government would be reviewed, now that a complete Democratic government was elected. The previous Conservative administration signed such an agreement a year ago but the Red Tories failed to call it.

Directors reported that an equalization payment of \$333 million had been paid farmers who had delivered their barley and pool elevators between Aug. 1, 1947, and Oct. 1, 1948. This amount was meant was in compensation for increased prices received for such grain as wheat at 21 when the government price ceiling was lifted.

10 Sailors Drown

CALGARY, Nov. 24.—(CP)—Ten Chinese sailors were drowned yesterday when a launch sank. The boat was taking the sailors ashore after Chinese naval maneuvers.

North Youth Goes to Jail

Xmas Holidays For Schools Start Dec. 23

A Grade Prairie youth who came to Edmonton about four months ago was sentenced to nine months in Fort Resolution, today. He had been accused of four charges of forgery and four charges of uttering forged documents.

The youth is 18-year-old George R. Hirlindell, who was charged before Magistrate A. L. Miller in this police court.

It was stated that the accused obtained approximately \$75 in cash from forged documents.

When asked by the magistrate why he committed the offense, R. Hirlindell replied: "I was broke and had no money somehow. I couldn't get work."

He was sentenced to nine months in jail, the first eight charges, sentences to run concurrently.

Tb. Seal Sale Off To Start

Unusually large sale campaign of the Alberta Tuberculosis Association is proceeding satisfactorily with the total at the end of the first week at \$8,000.

E. H. Read, president of the Alberta Tuberculosis Association, reported that the campaign to date is slightly ahead of last year.

In the Edmonton and Northern Alberta area sales to date total \$5,000.

Contribution objective is \$55,000. Contributions here should be sent to the Kinsmen's Christmas Seal Committee, Heitman Hall.

HARDY OBSERVES

Bomb Holes Better Than Roads Here

London's once bomb-cratered streets look better today than re-paired spots the Edmonton-Canada highway.

After some observations of Dean R. M. Hardy of the University of Alberta engineering faculty in an address to the Canadian Society of Civil Engineers, the engineering Institute of Canada in Merrick's Embassy Room Tuesday.

British looks "quite normal," Dean Hardy said.

The people of Europe seem convinced war is inevitable and that an ultimate of "the sooner the better" comes sooner.

Dean Hardy visited this summer on the continent, is not so far progressed as in Britain.

Although most Western German cities are still running again their scientific men are far behind the times.

Air travel and train service in Europe is in many places suspended or stopped completely.

Dean Hardy's observations on soil mechanics and foundation engineering in Amsterdam.

T. W. Dakin, vice-chairman of the engineering faculty of the University of Alberta, presided over the meeting.

Dean Hardy was introduced by Prof. E. Gards, secretary of the faculty of engineering at the University.

Expert Advice Best

Wisely and commendably the city commissioners are going to apply to transit problems in Edmonton exactly the same principle of expert advice that *The Edmonton Bulletin* has demanded with regard to all civic departments.

It has been announced that Norman E. Wilson of Toronto had been invited to make a complete survey of the Edmonton Transit System this winter and to make operational suggestions.

Mr. Wilson is Canada's most noted radial transportation and traffic expert. He was previously called into consultation in 1938.

On that occasion his attention was centred mostly on the type of vehicle best suited to Edmonton's needs. This time he will be asked to study details of operation.

The employment of Mr. Wilson for this purpose is an obviously intelligent move because where the local transit management can only work out the best and most profitable operational methods by trial and error, the experienced expert can lay his finger immediately upon the methods that are losing transit revenue for the city and upon the methods that are not yielding maximum revenue.

And since maximum revenue predicates maximum service, his survey will confer an equal benefit upon treasury and pa-

sengers alike.

As *The Bulletin* pointed out some weeks ago, the difference between skilful transit operation and experimental transit operation may mean all the difference between profit and loss.

But what the city proposes, laudably, is with respect to the transit system should be done with respect to every civic department.

If a transportation expert can point the way to a better transit service and more robust transit revenues, other experts can point the way with equal facility to more efficient and profitable methods in the city engineer's department, in the telephone department, in the water department and in practically every phase of civic service.

That was the reason why *The Edmonton Bulletin*, backed by substantial public opinion, vigorously urged months ago that the city engage outside experts to survey civic administration completely.

The city council adopted that plan in principle.

It is now being applied to the transit system.

How long must Edmonton residents and harassed Edmonton taxpayers wait before it is applied to other civic departments?

More Bundles for Britain

Northern Alberta is asked to raise \$200,000 towards the \$7,000,000 Canadian quota fixed by the United Emergency Fund for Britain to send food parcels to the British people.

During the war and since the war, the citizens of this part of Alberta have recognized their family and humanitarian responsibility towards their cousins across the sea.

But the need for shipments of food is much more dire than it has ever been before. Privations are greater. The danger is more acute.

Recognition of these circumstances led to the formation this Spring of the United Emergency Fund for Britain.

The purpose of the Fund is to so coordinate aid to Britain that the maximum purchasing power of every dollar contributed will find its way into British kitchens on the basis of need.

University Public Relations

Decision of the Students' Union of the University of Alberta to establish a public relations committee to acquaint Alberta people more fully with student activities is something more than a desire to modernize and streamline its organization.

The science of public relations has already proved its worth in almost every industry and institution of the country.

It has created better understanding among different groups throughout all Canada.

The application of this science, there-

fore, to the affairs of university students is not only commendable in a general way but commendable in a particular way because academic life has a way of becoming exceedingly and unprofitably remote from the life of the general community.

There is too much tendency for a student body to become isolated in a world of its own, the point where the public, through lack of understanding, may build up a vague hostility to student aims and objects.

This is the eventuality which the stu-

dents, wisely enough, seek to avoid.

It is an excellent and economical plan.

Edmonton people aware of conditions in Britain, will subscribe generously to the campaign now under way.

Contributions will be received at any bank.

Nfld. Union Pact Signing on Dec. 2

Work On Terms Is Now
Practically Completed

OTTAWA, Nov. 24.—Formal date for the signing of the terms under which Newfoundland will join Canada as a 10th province has been set for Dec. 2.

A source in close touch with the negotiations, in progress since Oct. 6, said work on terms now is practically completed. The delegates will meet at the formal session of the Canadian parliament to sign the seventh draft of the terms for study.

Both sides are happy at the outcome of the negotiations, said the source. Financial difficulties have delayed the signing out and it is not expected that it will be until after the present six-man commission government is appointed by the United Kingdom to administer the union terms.

Newfoundland has not had a legislature since 1933 when a present six-man commission government was appointed by the United Kingdom to administer the financially-harassed island.

Once the terms are formally signed, the Newfoundland commission of government will ask the United Kingdom government to approve them as the conditions of entry.

The Turks call people who are not Mohomedans "gloos."

Lots of Rumors but Little Action on U.S. Bowl Front

NEW YORK, Nov. 24.—(AP)—There were plenty of rumors but no action Tuesday on the job of finding teams for the major New Year's Day United States football bowl games.

The Rose Bowl is set with California and Northwestern. Southern Methodist and Penn State are in the Cotton Bowl. The SUSSI opponents have not yet announced.

STILL EMPTY

The Sugar Bowl at New Orleans and the Orange Bowl at Miami are still empty.

A Major League team is Oregon, outvoted in efforts to land the Rose Bowl assignment and Oklahoma. Big Seven champion, have the inside track for the Orange Bowl.

Sugar Bowl officials won't announce team until Saturday night at the latest.

OTHER DEVELOPMENTS

These were the developments during the day on other bowl fronts:

Colorado A. and M. and unbeaten Occidental College of California signed contracts in the Raisin Bowl at Fresno, Calif.

Lafayette College of Pennsylvania, which had been invited to play in the Sun Bowl at El Paso, Tex. The team wanted to go. The fans wanted to go.

South Georgia junior college accepted a bid from the Little Sugar Bowl game at Monroe, La. Dec. 11.

Bellevue Centre

Tops Junior Race

MOOSE JAW, Nov. 24.—(CP)—Frank Kubash, starry centre for the Saskatchewan Junior Hockey League, is leading the individual scoring race despite the position of his team.

Kubash, last Tuesday, revealed that Kubash has 10 more points than any other player, man, Bob Schmid, of the league-leading Capitols, who has nine.

Southland, in its second year,

Mother ON SPORT

By STAN MOHER, Editor

They Want a Rematch

Danny MacDonald isn't a very big man. Neither is he given to outbursts of arm waving, complete with ravenous excretion. He is, in fact, a soft spoken operator, one who could easily pass as a retired shoe clerk or a private investigator for a see-all, say-little agency.

Therefore, it's not correct to suggest he was in a storm-tossed Tuesday. Nevertheless he was breathing defiance in his own quiet way.

"We want that Halligan again, and we want him quick," Roddy MacDonald's manager insisted. At which point it became more or less official: the MacDonalds, manager and fighter, have a yen for a rematch with Ed Halligan of the Spokane Lumberjack who so effectively cleaned up the lone policeman's comeback planes in the Stock Pavilion last Friday night.

Over the 10-round route Halligan beat MacDonald by a margin from here clear back to Spokane. In the course of taking care of the popular Edmonton boxer, Halligan had to fight the other side of the line, secured two clean knockouts.

MacDonald went for one trip to the canvas just as the gong sounded to end the second round. He took a four count, "was saved by the bell" ... according to many of the ringiders.

Generally speaking ... it wasn't too close ... anywhere along the way.

1 * * * *

A Brand New Angle

"It would be different next time," manager Danny says. Now don't get him wrong. He doesn't promise that his boy would reverse the decision. But he does guarantee (although for the life of us we can't quite see how anyone can be certain of the turn of events in such matters) "that one or the other will go down for the count."

In other words MacDonald, a hesitant, hold-back ringster on the occasion of first mixing it with the unorthodox Halligan means to give it the old college try if given another chance at the native.

Danny MacDonald (no relation of Roddy's, incidentally) has an explanation for his fighter's indecisive showing during the middle bouts.

"He was fighting on instinct alone from the third through the seventh round," Danny insists. "This is to say the punch which dropped MacDonald was given him by accident. He also scrambled his think-tank to the point where 'I fought in a fog' over exactly half the route."

This is a brand new angle, one that didn't come to light the night of the fight. "Just before Roddy headed out for the eighth he inquired what round it was, showed real amazement when I told him the fight was so far along," Danny now remembers.

So?

2 * * * *

Would It Take a Second Time?

As to whether it's a sound idea to toss McDonald into the same ring with Halligan again in the near future we only know what we know from watching their first meeting.

MacDonald's timing was away off. He might just as well have left his right hand in his corner, for all he uses it made. True, he then fought out (jolted with a blow to the head) to hit good punches, his timing being what it was. It was Halligan who did what fighting was done.

All of which manager Danny admits. In fact he seizes on these very facts as an argument for a rematch. "Surely," he says, "if you can't beat him once, why not? Roddy was at his best. When he won, he won 91 of 93 fights overseas. Beat far better boys than Halligan even though of being when he campaigned in New England after turning pro in 1945."

Danny promises a different training routine should there be a next. "Roddy's lay off work entirely for a few days. We know where we can line up a couple of sparring partners of the kind that will enable him to get his timing down."

A fight manager whistling to keep up his courage? You can't prove it by us. But one thing is certain: MacDonald means to come to grips with Halligan at least once more ... even if it entails a jinxed second.

So where do we go from here, Mr. Gene Mason?

Hart Plans Amateur House-Cleaning Job

LONDON, ONT., Nov. 24.—(CP)—Prof. Nelson C. Hart, newly-elected president of the Amateur Athletic Union of Canada, is not going to wait until spring before cleaning house.

Hart, who succeeded George MacLennan of Montreal, head of Canada's amateur sports governing body, said he would start his job last week, said Tuesday night some of the "deadwood" now clogging up the organization's councils will disappear away before the organization can function properly.

MODERNIZED GROUP

"With all due respect to some of our members," he said, "there's little doubt that some changes are necessary. Our group has to be modernized, brought up-to-date. A speedy house cleaning is in order."

Hart also discussed several other plans which will, he hopes, help improve the work of the Canadian amateur athletes.

TO FORM TRADE CLUBS

"We intend," he said, "to make an effort to form as many trade and craft clubs as possible in Canada. The way things are now, if a boy is a stand-out track or fielder, he has to leave school to attend. If he's wasted, if he doesn't go to university. If clubs and groups were formed for boys like these, it would mean a great deal."

Asked how the A.A.U. proposes to go about securing these clubs, he replied:

"That's something we'll have to work on. But we'll work out some thing."

Emil Dlouhy of Budapest, has discovered a method of photographing a conic or cylindrical surface on the glass plane.

HAP CHANDLER AGAIN PAGING LEO DUCHERON

CINCINNATI, Nov. 24.—(AP)—Baseball Commissioner A. B. Chandler has summoned Leo Ducheron, manager of New York Giants, and Freddie Fitzsimmons, manager of the visiting Chicago winter baseball team, to explain Fitzsimmons' signing as a coach with the Giants, the commissioners' spokesman said.

Walter Mulry, Chandler's secretary, said that when Fitzsimmons, a former player with the New York club as a coach "about a month ago" still was on the reserve list of the Boston Braves as a coach.

Saskatoon Gets Speed Skate Meet

MONTREAL, Nov. 24.—(CP)—A decision of the Amateur Skating Association of Canada to hold the 1949 Canadian Games speed skating championship in Saskatoon was made known Tuesday.

Plans were made to have the skating association affiliate.

TO FORM TRADE CLUBS

"We intend," he said, "to make an effort to form as many trade and craft clubs as possible in Canada. The way things are now, if a boy is a stand-out track or fielder, he has to leave school to attend. If he's wasted, if he doesn't go to university. If clubs and groups were formed for boys like these, it would mean a great deal."

Asked how the A.A.U. proposes to go about securing these clubs, he replied:

"That's something we'll have to work on. But we'll work out some thing."

Emil Dlouhy of Budapest, has discovered a method of photographing a conic or cylindrical surface on the glass plane.

President W. E. Houghton of Montreal was re-elected to head the skating association.

'Touchdown' Turner Turns on Speed

LEGS ARE FLYING as Howie (Touchdown) Turner breaks away, clutching a 19-0 victory over Tigers in eastern grid final last Saturday. Other Ottawa player is 'Golden Boy' Tony Golab.

Lou Newman Pins Steele On Action-Crammed Card

By Dick Beddoes

Ray Steele's future as a wrestler is behind him. But out of the past came the ex-world's champion turner, Lou Newman, to trade brutalities with Lou Newman, 248 pounds of pachyderm, finally heavier than mighty frame upon Steele to cap the main event two falls to one.

Steele is rising 49 and it showed. Lou Newman applied two neckholds to the green giant old man at 13:30 to capture the first fall.

Raymond was still in there grunting after a short break and then, with a number of visitors strong slumped Steele held his belt and flattened him with a body punch. Wally Beaumont, the rasslin' referee who doubles as a criminal lawyer on the side, missed the pin.

Steele had to be assisted from the ring. His parting remark: "There's no room for me in here."

That could be. But there won't be if he doesn't stay clear of the ring, says Lou Newman.

Irish Pat McGill remained in the style to which he is accustomed in the semi-wind-up. After the first round he inflicted a fast one on Jerry McLean but less than 553 men were signed to the "Pat" McGill Cup. The 10th round was raised in token of triumph as a record 49 men took part—Govt's Print."

Steele had to be assisted from the ring. His parting remark: "There's no room for me in here."

That could be. But there won't be if he doesn't stay clear of the ring, says Lou Newman.

Irish Pat McGill remained in the style to which he is accustomed in the semi-wind-up. After the first round he inflicted a fast one on Jerry McLean but less than 553 men were signed to the "Pat" McGill Cup. The 10th round was raised in token of triumph as a record 49 men took part—Govt's Print."

Steele had to be assisted from the ring. His parting remark: "There's no room for me in here."

That could be. But there won't be if he doesn't stay clear of the ring, says Lou Newman.

Irish Pat McGill remained in the style to which he is accustomed in the semi-wind-up. After the first round he inflicted a fast one on Jerry McLean but less than 553 men were signed to the "Pat" McGill Cup. The 10th round was raised in token of triumph as a record 49 men took part—Govt's Print."

Steele had to be assisted from the ring. His parting remark: "There's no room for me in here."

Vancouver May Break**November Rain Mark**

VANCOUVER, Nov. 24.—(CP)—It probably won't surprise Vancouverers to learn that the December record rainfall for three years was broken this month.

With only one week left till

Drank on Duty, Private Is Fired

FRANKFURT, Germany, Nov. 24.—(AP)—A private in the States has disclosed yesterday that Private Miller P. Stevens has been fired \$100 for drinking while on duty. He was on guard duty at the Soviet Mission here Nov. 7 and was invited in for drinks with the Russians.

month's end, 6.96 inches of rainfall have been recorded, but the December record rainfall for three years was 7.42 inches established three years ago.

15-hour period Monday, 84 inches poured down.

First general rainfall records were started here 12 years ago. Unofficial all-time total was 15.6 inches during November, 1900.

Judge Dies

TORONTO, Nov. 24.—(CP)—Judge James Parker, 75, died last night. Born in St. Catharines, Ont., he was appointed to the York Court bench in 1931.

Ontario Power Quotas Boosted

TORONTO, Nov. 24.—(CP)—A 2% per cent hike in power quotas for Ontario municipalities was effected yesterday as a result of improvement in water conditions at hydro generating plants in the Ottawa valley.

Power production has been boosted by recent rains in the Ottawa valley. The extra power, generated by 100,000 kilowatt hours daily, will be used to meet winter peak load.

For Toronto, the increase meant high last night, and the week night before, there were no more citizens than lights didn't light candles.

Woman Sentenced

TORONTO, Nov. 24.—(CP)—Marp Peterson, 22, yesterday was sentenced to two years plus a fine of \$200 or three months after being convicted of illegal possession of drugs.

3% BRITONS THINK U.S. STILL COLONY

LONDON, Nov. 24.—(AP)—Three per cent of the British people think the United States is still only a colony of Great Britain, according to a poll taken yesterday. That, officials said at a press conference, is one of the reasons they're launching a "Know the Empire" campaign.

African Arsenal Opens Saturday

MOMBASA, Kenya, Nov. 24.—(Reuters)—Britain's new East Africa colonies' first big military strike will be open Saturday when Col. W. J. L. Nairn, commanding officer of the depot, arrives in with his staff. The depot is intended to supersede vacated bases in Egypt and Palestine.

Six City Blocks Razied By Fire

REYNOSA, Mexico, Nov. 24.—(AP)—A fire last night burned through six city blocks, mostly in slum areas along the Rio Grande river, in this border town of 30,000. No injuries or fatalities in the six-block area were destroyed.

Money Smuggling Fine Is \$10,000

LETHBRIDGE, Alta., Nov. 24.—(CP)—Cuthbert H. Harry, former Calgary druggist, was yesterday fined \$10,000 in United States currency for smuggling \$10,000 in gold coins into Canada. It was decided that the money would be changed into Canadian currency and returned to him in amount. Harry would then receive the remainder in Canadian funds.

He was given 10 days to withdraw the remainder of his gold coins.

Other citizens, arrested at the border port of Coats with Harry, were withdrawn by the crown.

Eye-Witnesses Fail To Identify Bandits

MONTREAL, Nov. 24.—(CP)—Four eyewitnesses to the Sept. 20 holdup at the Royal Bank of Canada, which two policemen were slain, told their stories in King's Bench Court yesterday but none could identify the bandits.

The four, members of the Oathful Cloutier, one of three men charged with the murder of Constable Emile Duranearge and Paul

When, one after another, the witnesses identified the bandits as the slayers because of handkerchief masks, Cloutier was seen to smile broadly and say: "I'm glad to whom he was handed over."

Evidence of all four indicted bandits was introduced yesterday. The other is said to have been in a nearby car.

In addition to Cloutier, Donald change basin.

and Douglas Perreault, unchained, had also been charged with murder. All will be tried separately. Cloutier was arrested soon after the shooting. The Perreaults were captured in Tabor, Alta.

U.S. Kiddies Give Party In Britain

CLEVELAND, Nov. 24.—(AP)—En route to the 200 pupils of Moberly school in London, the making of presents for the children, weighing 350 pounds, were started on their way by pupils at Coventry grade school in Cleveland. The presents, which included the third grade, taught this year by a Moberly teacher here on an exchange basis.

ENTRANCING FEMININITY of a frothy evening gown adds sparkle to a woman's eyes. With the holiday party season edging around the corner or everyone's plans, frocks such as this steal to favorite position on the list of wardrobe wants.

DOROTHY DIX SAYS—

Many Advantages For Women in Marriage

DEAR MISS DIX: I am a girl of marriageable age, but recently I have been making great against marriage that I am beginning to wonder if I really want to marry, or if I had better play safe and be an old maid. Here are some of the discouragers that they hand me:

"After you marry the thrill is gone, quarrels become common," and there is no more "love-making." "Women are not as young as when a woman loses more freedom than a man does, for she soon is tied down and bored."

"After marriage most husbands rarely make enough money for the house expenses and a wife can't give fancy parties to a husband."

"During the first year of marriage a girl loses the desire for dolls and toys and gets herself dressed up and lets herself go."

"There comes a time in all marriages when husbands become tired of the same old wives get on their husbands' nerves."

"That is what married men say about marriage. Will you please tell me some of the advantages of marriage, if any."

LOUISE,
ANSWER: Don't let me get you down, daughter. There are bound to be more kisses than kicks in the holy estate, and especially when you're young. You will be breaking her neck to get into it.

Of course, the charges against marriage are true, but they are true enough in many cases, but hope springs eternal in the human heart. If she is determined that she is going to get a great love for a husband and live happily ever after.

MARRIAGE IS GOOD BET
No marriage is the romantic dream that girls think it is, but it is good, too. It is good, even when a friend illustrates that all married women wear heat because she has proved that she is attractive to men at least. Whatever it costs a woman to be able to smile "Mrs." before her name, highly desirable qualities in a husband is that he is a meal.

Shopkeepers Expect Record Xmas Sales

Toys, Lingerie Abundant First Time Since Severe Shortages of War Years

Storekeepers expect this Christmas season to be the biggest ever.

This year shopkeepers are confident December sales will be even better. Some forecasters set the gain at 10 to 15 percent from a year ago.

With the high level of national income, retailers give these reasons for their optimism: Supplies of goods are better and more varied than they have been in years; there are more new, every-day gift items; prices are higher but values are better, and there is a greater range of moderate-priced gifts.

The coin purse that isn't teethed to a chain or a card can be blamed for most of the fumbling in a department store that begins when a bus or trolley pulls to a stop.

Competition is back in full force.

Merchants have recognized that in their selection of goods, they also must compete with the department store that simplifies search of the lining of your small change purse.

Makers of toilet goods have come out with a wide variety of cosmetic kits.

There is a marked awareness of the value of Christmas-packaged gift sets, which disappeared during the war, and now are back in full force, everything from casual slippers to leather-bound books in gift sets.

One manufacturer of furniture for the home furnishings trade says:

"Toys manufacturers again are offering Christmas-packaged gift sets, which disappeared during the war, and now are back in full force, everything from casual slippers to leather-bound books in gift sets."

Another dependable trick is to carry change in a dependably dressed handbag, carried inside of a large handbag, although toy-like in dimensions, will make one of these changes puzzle a child to find, no matter how much he may search.

You can also, of course, always carry your winter coat pocket, a place for catching away a few nickels and dimes which can be easily lost.

It is a good idea to keep your purse closed when you are out.

Only a restrained one per cent of the public want necklaces, and perhaps the reason is that the average sales management found.

Many a wife, without beauty, brains or charm herself, rides into the room in a blouse and stockings, and wears apparel as their first choice. Indeed, that, women like to wear them, and the latest automobiles are second with men.

After that, most will take radios, television sets and other items.

Only a restrained one per cent of the public want necklaces, and perhaps the reason is that the average sales management found.

Two manufacturers expect sales to rise in the last quarter of the year, as they say, because the supply of toys of good quality at moderate prices, is far greater than a year ago.

Ingenious Tricks

Freshen Old Hat

Want to know how to freshen up your bonnets that are beginning to show signs of wear and deterioration? Call in a service looking as good as new?

Tips on refurbishing come from a New York milliner whose unique business it is to rent hats.

MARY Clarke, whose elegant establishment is known to customers to another, knows all the tricks of clipping up wavy hats.

When for example, a rented hat has a comical back crack, Miss Clarke restores the hat over again by holding the hat over a radiator to straighten out the crack.

That restorative treatment is not the only one for a flat hat. If soil

lightly sticks to the soil before

washing, it can be removed.

To freshen up the inside of a hat, Miss Clarke's tip is to remove the inner band and wash it as she does, or you can turn the hat inside out and re-inset the band.

The inside of a well-worn hat is held together with elastic bands.

King Intervened Against Churchill

Threatened To Lead Troops If Premier Went To France

This is a condensed serialization of Dwight D. Eisenhower's "Crusade in Europe." It contains highlights of the book published on Nov. 23, 1945, by Doubleday and Company. Copyrighted by Doubleday and Company, Inc., 1945. All rights reserved.

CHAPTER XIV

During all this period my personal contacts with the Prime Minister were frequent and profitable. He took a lively interest in every important detail, and was able to lend us an effective hand when some of our requirements demanded extra effort on the part of our overburdened British civil agencies.

Visits to Chequers, the country home of the Prime Minister, always had business as their main purpose. But the countryside was so pleasant, and the time so short, that much time spent in strolling through fields and woods was real recreation.

Mr. Churchill rarely failed to inject into most conferences some element of emotion. One day a British general happened to refer to soldiers in France as "the sons of the Welsh staff officer," as "bodyguards." The Prime Minister interrupted with a speech of condemnation—he said it was inhuman to talk of soldiers in such cold-blooded fashion, and that it was better to call them merely "fright—or worse—corpses." I must confess I always felt the same.

But on that occasion my sympathies were with the staff officers who to my own obvious embarrassment had unconsciously drawn the displeasure of the Prime Minister.

FINAL CONFERENCE

On Nov. 23, final conference was held at St. Paul's School under the supervision of SHAEF. At this final meeting every principal member of the Combined Chiefs of Staff and the War Cabinet attended, as did also the King of England. Field Marshal Smuts, by the way, his old friend, Mr. Churchill. During the whole war I attended no other conference of such high rank as this one. The purpose was to assure that all doubtful points would be cleared up and controverted.

Thus I had the opportunity to hear a word from both the King and the Prime Minister. The two gave stirring fighting speeches, in the course of which he used an expression that struck many of us as particularly American: "We're in this together." As far as the British force, he said, "Gentlemen, I am hardening toward this enterprise," meaning to us that he had now fully doubted its feasibility and had previously advocated its further postponement in favor of other times elsewhere, but had finally, at this late date, come to believe with the rest of us that this was the time to go forward in order to achieve the victory.

AIR PLAN UNSETTLED

By the time the operational plans had moved to Portsmouth I felt that the time of great decision to be made before D-Day was that of fixing, definitely, the date of the assault. However, the old question of the wisdom of the airborne operation into the Cherbourg peninsula had again come up. Dr. Leigh-Mallory, Air Chief Marshal Leigh-Mallory's mind.

On May 20 he came to me to protest once more against what he termed the "utile slaughter" of two fine divisions. He believed that the airborne assault on the landing grounds and anticipated resistance was too great a hazard to cover the ground. Among the American outfits we would suffer some 70 per cent losses, and in addition at least 50 per cent in paratroop strength before the airborne troops could land. The British divisions would have no remaining tactical power and the attack would not only result in the sacrifice of two fine divisions but would be helpless to effect the outcome of the general assault.

Leigh-Mallory was earnestly sincere. He was noted for personal courage and was merely giving me, as was his duty, his frank opinion.

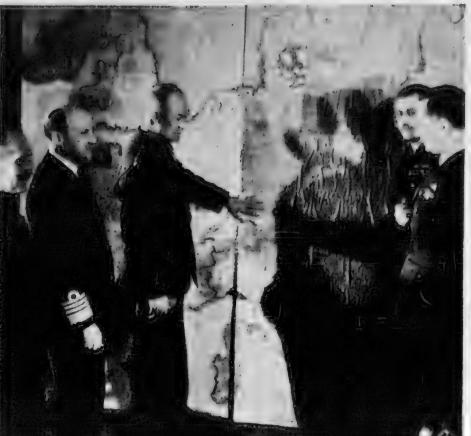

DIFFICULT PROBLEM

It would be difficult to conceive of a more soul-crushing problem if any general expert was asked than the plane of operation was worse than stubborn folly, because even the entire cost precluded us from not gaining the principal object of the drop. Moreover, if he was right, it appeared that the assault would be probably hopeless, and this meant that the whole operation suddenly required a degree of even foolhardiness that prefaces a gigantic failure, possibly. Allied air chief.

I went to my tent alone and sat down to think. Over and over I reviewed each item, analyzed the sequence of events, here and there thoroughly and exhaustively. I realized, of course, that if I delayed, I would be unable to get my technical expert on the subject, and his predictions should prove accurate, I would be forced to ignore the unbearable burden of a conscience justly accusing me of the stupid blundering of the day and of the flower of our youth. Outweighing any personal burden, however, was the possibility that if he was right, the assault would be far more than local; it would be likely to spread to the entire continent.

DETERMINED TO GO

Leigh-Mallory's estimate was just an estimate, nothing more, and our experience in Sicily and Italy did not support his argument. Bradley with Ridgway and other air-borne commanders, had always supported him and the staff in the matter, and

HOLDING THEIR FIRST conference at headquarters, members of the Allied Supreme Command consult a huge wall map prior to the invasion of Europe. Left to right: General Sir Bernard L. Montgomery, commander-in-chief of the British forces; Admiral Sir Bertram Ramsay, Allied naval commander; General Eisenhower, who today continues his personal story, "Crusade in Europe," in these columns; Air Chief Marshal Sir Trafford Leigh Mallory, air commander-in-chief, and Air Chief Marshal Sir Arthur Tedder, deputy supreme commander.

they did not meet our requirements at the moment.

The first conference for determining the feasibility of attacking on the tentatively selected day, June 5, was convened at 6 a.m. on June 4. However, some of the attacking contingents had already been committed to the assault.

The conference on the evening of June 4 presented little difficulty. The morning and tension mounting, the commanding general and his staff were almost too bitter to concentrate.

DISCOURAGING REPORT

When the commanders assembled on the morning of June 4 the report we received was discouraging.

GALE AND RAIN

At 2 p.m. this morning our air base camp was shaking and shuddering under a wind of almost hurricane proportions and the accompanying rain seemed to be hitting in horizontal streaks. The mile-long trip through muddy fields was like a race, and there was anything but a cheerful tone since it seemed impossible that in such weather the assault would be successful.

Then the conference started. The first report given us by Group Captain Stagg and the Meteorologists was that the weather conditions predicted the day before for the coast of France were actually worse than expected. They had persisted in the attempt to land on June 5 a major disaster would almost certainly follow.

This they told us to inspire more confidence in their next report, which was that by the following morning the weather would be more favorable, and even the handling of small boats would be rendered easier.

Weighing all factors, I decided the attack would have to be postponed.

At 2 p.m. the decision was made.

The immediate scratch of orders to the vessels and troops already at sea and created some doubt as to whether they would be ready twenty-four hours later in case the next day should prove favorable.

The conference on the evening of June 4 presented little difficulty. The morning and tension mounting, the commanding general and his staff were almost too bitter to concentrate.

PROSPECT NOT BRIGHT

The prospect was not bright because of the possibility that we might land the first several waves successfully and then find later that the assault had failed.

The morning of June 5 was a picture of gloom and tension mounting.

The commanding general and his staff were almost too bitter to concentrate.

At 2 p.m. the conference started.

OIL

Imp. Spudding Redwater Five

By Harlo Jones

Interest in the development of the predicted major oilfield at Redwater remains high, more than two months after explorations in the area and continuation of work by Imperial Oil Limited, discoverers of the new source. It is expected Imperial Redwater 5 will be spudded in today.

Possibility of a major extension of the field, indeed more than enough crude to supply the world, comes from the vicinity of Pacific Sunray's 1.13 miles northwest of the discovery well. A recent test gave strong gas flow. It is believed another drilling test of the well was postponed until today because of mechanical trouble.

THREE BY INDEPENDENTS

Three wells are also to be drilled in the area by the independent, the Anglo-Illinoian company which paid \$600,000 for rights on a half section in the area, has announced plans for drilling in the sections 10 and 15 of 56-37-22W, while Phillips, Sunray and Princess, who have also reportedly reached the depth of 5,607 feet, have not yet started on their test of the interval 5,600 to 5,120 ft. currently being run. G.E.L. has also reportedly reached the depth of 5,607 feet, and is now drilling on 4,003 feet.

An increase in the price to be paid for oil on or about 35 cents per barrel is being asked by the small Prairie Oil Company. The company has claimed the increased cost will be covered every well. The successful independent follow-up, Imperial Redwater, will be five miles northwest of the discoverer.

From Woodford, word has reached Edmonton that a test of the lower price.
